

Call for Evidence.
On Regulators, Safeguarding & Other Authorities

Introduction

This call for evidence is as a result of the huge volumes of concerns we receive about the investigation of abuse and other wrongdoing. We have been well aware of these issues for some time and have highlighted these failures in the case For Edna's Law.

We now gather this further evidence for a number of reasons,

Firstly, to expose the scale of the problem and call for action.

Secondly in support of the implementation of Edna's Law.

Thirdly, because all those affected have suffered serious injustice and their voices need to be heard.

Finally, because nothing will change until the truth is acknowledged.

This will be a major piece of work and we have already been inundated with evidence, so we know this is a huge issue. To ensure that everyone's story can be heard we issue the following guidelines.

Can you start by giving your name and stating that you are giving permission for publication * **please note those who do not wish to be named will not be excluded, simply state anonymous or use a pseudonym.**

We are aware that most people's experiences will include more than one regulator, so for **each** regulator we are allowing two pages. We have to limit the size of each submission because of the volume of individuals wishing to submit. * **Links can be included in the submissions.**

We are accepting submissions on **all** regulators, commissions and safeguarding because all evidence is relevant to demonstrate why all systems are failing the public and there is an urgent need for real change.

The evidence will be published in the spring of 2021. All submissions should be emailed to www.compassionincare.com subject heading , **Call for evidence, Regulators.**
